SPCA GUARDIAN PRO: Volunteer Staff Dashboard Guide

Welcome, Volunteer

This guide explains how to use your personal Volunteer Dashboard to manage your activities, explore opportunities, and track your contributions.

For assistance, contact your Volunteer Coordinator.

2. How to Use Key Features

2.1. Logging Your Activities (`Activities`)

This is the most important function. You must log every interaction with an animal.

1. Click `assignment Activities` in the menu.
2. Click `+ Log New Activity`.
3. Fill out the form:
   - Select Animal: Choose from the list of animals at the shelter.
   - Activity Type: Walking, Socialization, Feeding, Grooming, Training.
   - Date & Time: When the activity happened.
   - Duration: How long you spent (e.g., 30 minutes).
   - Notes: Be specific. Example: "Walked on the trail. Reacted calmly to cyclists. Good on leash."
4. Click Save. This logs your hours and provides behavioral notes for the animal.

2.2. Signing Up for Events (`Create Events` / `View Events`)

5. Click `Create Events` to see a list of events you can join.
6. Find an event (e.g., 'Saturday Adoption Drive').
7. Click `Register` or `Sign Up`.
8. To see all events you’re registered for, click `View Events`.

2.3. Managing Your Profile (`Manage Volunteers`)

9. Click `Manage Volunteers`.
10. You can:
    - Update your contact information (phone, email).
    - Set your regular availability (e.g., 'Available Monday and Wednesday mornings').
    - View your assigned tasks and animals.

2.4. Tracking Your Contribution (`Track Volunteers`)

11. Click `Track Volunteers`.
12. View:
    - Total volunteered hours.
    - Hours per activity type (walking, events, etc.).
    - History of all logged activities.

3. Your Personal Dashboard (`Dashboard`)

When you log in, your Dashboard provides a snapshot of your volunteer life:

- Welcome Message: 'Hello, Delia Gwebana!'
- Upcoming Shifts & Events: Next events or shifts scheduled.
- Recent Activities: Feed of animal interactions recently logged.
- Quick Stats: Total hours for the month, number of animals helped, etc.
- Notifications: New messages from coordinators or alerts about your animals.

4. Volunteer Do's and Don'ts

Do	Don't
Log activities immediately after completing them.	Log hours for time you did not volunteer.
Write detailed, objective notes about animal behavior.	Diagnose medical issues; report concerns to staff instead.
Use the `Manage Volunteers` section to keep availability current.	Share your login password.

Check `View Events` page to avoid missing commitments.	Access information outside your role.

Need Help?

- Forgot Password? Click 'Forgot Password' on the login page.
- Can't log an activity? Ask a senior volunteer or staff member.
- See a mistake in your hours? Contact your Volunteer Coordinator.
